Greetings OLLI Friends:

“I don’t like winter ’cause there’s never any daytime left over after dinner”

This caption from Bill Keener’s cartoon strip “Family Circus” sums up how I feel about the long, dark days of January, February, and March. My daily afternoon walks have to be taken earlier to avoid becoming night walks. And I have to run errands before 4:00 p.m. in order to avoid driving at night.

One way you can fill your daylight hours in the next few weeks is to participate in OLLI courses offered during the winter term. The offerings in this catalog contain many opportunities to satisfy our curiosity about topics we may never have explored. Our OLLI instructors have planned over 50 courses for us and we are grateful for their dedication and enthusiasm for teaching.

We will, of course, be delivering our courses online again this term. If you are new to participating in courses in this format, our Director, Jascenna Haislet, and our tech guru, Michelle Klishis, have prepared instructional videos to help you learn the ins and outs of Zoom and they are always willing to answer your questions.

So I hope you will join me and your OLLI friends this winter term until we can enjoy some daylight after dinner in the spring. Stay safe & well in these upcoming months!

Beverly Kerr
OLLI Board President

The 2021 winter term marks one year since OLLI began offering all programming online for the safety of our members, volunteers, and communities. It has been a learning experience that few of us, if any, anticipated. We have learned to navigate new technology to keep in touch with family and friends, to order food and household goods online, and to take OLLI classes.

While we are anxious to get back together in our classrooms, we have discovered a few advantages to our new model, including the ease with which we can welcome instructors from across the country, instructors who would not have previously been available to us. During the fall term, David Selby, a Morgantown native, shared highlights of his long career as a professional actor and his work on Abraham Lincoln from his home in California. This winter, we are bringing our members classes from Iowa, Montana, Texas, and again, California.

Dr. Robert Neymeyer, historian for the Grout Museum District in Waterloo, IA, brings us the story of the service and sacrifice of the Sullivans, five brothers from Waterloo who enlisted together in 1942 and were tragically killed together in combat. Dr. Anya Jabour, professor in the History Department and a past co-director of the Women’s, Gender, and Sexuality Studies Program at the University of Montana, will introduce us to feminist educator and reformer, Sophonisba Breckinridge. Aj Smit will lead a meditation workshop from her home in San Antonio and Caroline Cocciardi, writer and filmmaker from Saratoga, CA, will reveal a secret in the art of Leonardo da Vinci. We are excited to have Neymeyer, Jabour, Smit, and Cocciardi, along with another 37 generous and talented instructors, with us this winter, offering a wide variety of classes for our members.

Other benefits of our current delivery model include the ability for members to watch recordings of some past classes, access to programming for those who are not able to come to our classrooms, and the opportunity for members from both OLLI locations to share educational and social opportunities. As we move toward meeting in person again, the OLLI board and staff are working to keep online programming, and these benefits, available to our members.

Until we can re-open our classrooms, I look forward to seeing on Zoom.

Jascenna Haislet
Director, OLLI at WVU

Thank You to our Donors!

The Osher Lifelong Learning Institute at WVU is dedicated to providing the highest quality educational, recreational, and social opportunities possible to our members. For many years, we have been able to offer 200 or more classes, workshops, lectures, discussions, and field trips annually. In March 2020, OLLI quickly transitioned programming to an online platform for classes and new social events to keep our members engaged while physically distancing.

In order to sustain and grow the program, your financial support is needed. Although OLLI receives support from WVU and earnings from the Osher Endowment, this funding covers only about 50% of our expenses. Membership and registration fees cover another 25%. Therefore, the remaining 25% must be raised through donations, gifts, sponsorships, and grants.

Your donation to OLLI can help ensure that OLLI will be here when we return to our classrooms in Morgantown and Charleston.

As OLLI at WVU strives to achieve financial sustainability, we would like to say thank you to all who have given so generously this year. The following reflects donations processed between July 1 and December 14, 2020, per the WVU Foundation. If your name is not listed and you believe it should be, please call the OLLI office at 304-293-1793.

Honor Roll Faculty

Look for this icon next to the course titles.

The gold star indicates that the instructor is a member of the OLLI Honor Roll and has taught at least 10 courses and 60 class session hours. If more than one instructor is listed, the Honor Roll member is in bold.
Special Member Events and Opportunities

Special Member Events, unless otherwise noted, are free or discounted for current OLLI members!
Payment of term enrollment fee is not required.

Ask a Geek
Michelle Klishis
Tuesdays, Jan. 12 - Mar. 30, 8:30 - 9:30 a.m.

Sometimes you have questions about technology that don’t fit into a specific class or course or maybe you just have something that is driving you crazy. For those times, OLLI’s Professional Technologist, Michelle Klishis, has created a regular technology question & answer session.

Be aware that sometimes the answer is “No, you can’t do that,” and sometimes the answer is, “I don’t have a clue.” As long as you’re okay with getting “No” for an answer, Michelle is willing to field any and all questions. Also, feel free to send an email ahead of time if you think your question is going to be really complicated or beyond the scope of an hour-long session. Reach out to olli@hsc.wvu.edu with the subject Geek Question.

No question is too small or too silly to answer! And even if you think you don’t know enough to ask your own question, you can usually learn a lot listening to someone else’s questions! And Michelle can always ramble on about any tech topic if you get her started.

As a warning, Michelle’s strengths are Android phones, Windows PCs, MS Office software, and digital security and privacy. Her weaknesses are Apple products and AV equipment. (i.e., Apple questions are most likely to be answered, “I don’t know; I’ll have to look into it.”)

Conversations on Racism and Antiracism
Florita Montgomery, Jim Held, and Jascenna Haislet
Thursdays, Jan. 28 - Mar. 4
3:00 - 4:15 p.m.
Maximum Enrollment: 20

Although large public protests are no longer in the headlines every night, racism continues to be a very real and dangerous problem for many people in this country. It doesn’t always reveal itself through derogatory comments and names or overt threats and other actions. Oftentimes racism presents through microaggressions, support of discriminatory policies, or implicit bias. So what does all of this mean? How can we recognize racist thoughts and behaviors? How can we move toward being antiracist? Drawing on the research and work of the books How to Be an Anti-Racist by Dr. Ibram X. Kendi, White Fragility by Robin DiAngelo, and Caste, The Origins of Our Discontents, by Isabel Wilkerson, your co-hosts will facilitate a conversation exploring our individual beliefs, behaviors, questions, and struggles to understand what racism is and how its eradication will benefit all.

OLLI Virtual Happy Hour
Sundays, Jan. 24 - Mar. 14, 6:00 – 7:00 p.m.

Join us for an on-line happy hour with OLLI members! We’re going to chat and socialize and check in on each other! Take this opportunity to dress up and chat with people you haven’t seen for awhile or maybe haven’t met in person before! If we have a large number of participants, we’ll attempt to break this into several “smaller” rooms so conversation is possible. And once you’ve got the hang of this, you can set up your own video chats with friends.

Twilight Trivia
Tuesdays, Feb. 2 & Mar. 2, 7:00 - 8:30 p.m.

Grab a beverage and some snacks, settle into a comfy chair with your laptop, tablet, or smart phone, and test your knowledge of trivia, and the trivial, against your fellow OLLI members during our monthly virtual game night!

The Bayeux Tapestry: the Art, the Story
Melora Cann
Mondays, Feb. 8 & 15
12:30 - 2:20 p.m.

In 1066, the European world changed when William crossed the English Channel. Two men, William the Bastard, Duke of Normandy, and Harold Godwinson, Earl of Wessex, met on the field of battle at Hastings in October of that year. Harold was killed. William became the next king of England, William the Conqueror. The artwork known as the Bayeux Tapestry, which records their story of friendship and betrayal, was made in what became Norman England, probably by Anglo-Saxon embroiderers in Kent, shortly after the actual battle, and likely not later than 1070. This single surviving piece of art recorded an eye-witness account that is a fascinatingly complex and challenging communication nearly 1,000 years old.

The Elegant and Erotic Art of Aubrey Beardsley
Melora Cann
Friday, Jan. 29, 10:00 - 11:50 a.m.

Aubrey Beardsley (1872-1898) "shocked and delighted late-Victorian London with his sinuous black and white drawings. He explored the erotic and the elegant, the humorous and grotesque, winning admirers around the world with his distinctive style. Spanning seven short years, Beardsley’s intense and prolific career as a draughtsman and illustrator was cut short by his untimely death from tuberculosis at the age of 25. Beardsley’s charismatic persona played a part in the phenomenon that he and his art generated…” [Tate Gallery, London, regarding a recent exhibition on Beardsley]. This class will explore the life, times, and art of Aubrey Beardsley.

12:30 - 2:20 p.m.

It was a time of great epic films and the beginning of SciFi as legitimate, mature film genres. We’ll see the major innovators and stars that made progress possible and how TV had the increasing need to provide filmed “product” to an ever more demanding public hungry for screen entertainment right in their living rooms! Finally, we’ll look at how the movie theaters changed to suit new realities.

Byron Nelson
Fridays, Jan. 29 & Feb. 5

Women Artists Series: Mary Cassatt
Melora Cann
Fridays, Mar. 5 & 12
10:00 - 11:50 a.m.

Mary Cassatt was the only American painter to exhibit with the Impressionists in France. Cassatt moved to Paris from Pittsburgh as a young woman intent on becoming a painter, achieving her goal as an internationally recognized artist in her own right. She would exhibit in the official Paris Salon several times before joining the Impressionists at their fourth exhibition in 1879, invited by Edgar Degas. Cassatt and Degas would develop a lifelong professional relationship and friendship. Each respected the other yet often disagreed in philosophy and technique. Her art emerged with a clear specialty in domestic scenes focusing on women, especially women with children – and these are some of her best-known work. She advised several American art collectors; Cassatt’s advice to Louise Havemeyer resulted in a large collection of Impressionist art, most of which is now in the Metropolitan Museum of Art in New York City. Part one of this class will deal with her early years, her breakthrough into Impressionism, and her support of feminism; part two will address her later work including prints in the style of Japonisme, her relationship to Degas, and her later life.

West Meets East – ‘Japonisme’
Melora Cann
Fridays, Feb. 19 & 26
10:00 - 11:50 a.m.

After being closed to the West for over 200 years, Japan’s ports were reopened to the world by U.S. Naval Commodore Matthew C. Perry’s trade agreement in 1853-4. This allowed for a sudden influx of Japanese art and crafts to the West, particularly into Europe. Woodcut prints by masters of the ukiyo-e school transformed Impressionist and Post-Impressionist art with everyday subjects from “the floating world” presented in decorative ways. Japan’s pavilion at the World’s Fair of 1867 provided artists in Paris with an opportunity to see the best of Japanese art firsthand. The imported art was quickly named ‘Japonisme’ by a French writer. Japonisme had a pivotal impact on art and design in the West, notably causing artists to look outside a direct progression of art styles since the pre-renaissance. Among the artists particularly affected were Claude Monet, Vincent van Gogh, James McNeil Whistler, Aubrey Beardsley, Henri de Toulouse-Lautrec, Gustav Klimt, Mary Cassatt, James Tissot, and Edgar Degas. The class will examine a survey of ukiyo-e masters’ works and the Western artists whose own styles dramatically changed course with these new (to the West) concepts of design and composition.

Hacking Humans: The New Age of Enlightenments or Dark Age?
Allie Karshenas
Friday, Feb. 5, 3:00 - 4:50 p.m.

We have reached a time in human development where technological breakthroughs are speeding faster than human thoughts. In the super-highway of bio-informatics, incredible amounts of information are collected every second from each of us and fed into complex Machine-Learning algorithms where the machines know more about us than we do about ourselves or our family members and friends. What if I told you that your mind and body can be hacked from outside without you realizing it? In this new paradigm shift of man-machine relationship, what are our options?

Danielle Funk
Tuesday, Mar. 2, 10:00 - 11:50 a.m.

This class discussion will offer students time to reflect and consider appropriate and sensitive ways to approach loved ones about their health care wishes for advance care planning. The class is an expansion of the instructor’s previous class, Advance Care Planning in WV, the WV e-Directive Registry, and COVID-19. Students are not required to attend the Advance Care Planning in order to participate in this discussion course.

Jack Hammersmith
Mondays, Feb. 22 - Mar. 8
12:30 - 2:20 p.m.

Ever since John Adams refused to attend Thomas Jefferson’s inauguration, the loser of a presidential contest has not always accepted defeat gracefully. Beginning with Adams, too, there has been the potential of a “president’s club,” but until Harry Truman, it remained more theoretical than actual. Since Truman, presidents have treated their predecessors in varied ways: sometimes warmly, sometimes coldly, and frequently very politically. This class will examine this exclusive “club” as it has developed since WWII, and what relevance it has to modern presidential transitions, especially with changes in political parties.

This event remains the largest industrial accident in the history of the United States. The Sullivan Story of Service and Sacrifice
Robert Neymeyer
Monday, Feb. 1, 12:30 - 2:20 p.m.

The five brothers, close in age, worked in factories, failed to finish high school, and played hard. Their motto was “We Stick Together.” When the war broke out, they enlisted as a group. In November 1942, they died together when their ship went down near Guadalcanal. It was, and remains, the largest single family loss in American combat history.
