As I write this, the holiday celebrations will soon be here and we will say farewell to 2021 and bid welcome to 2022. Reflecting a bit on this past year, what a year 2021 has been! From trying to find an appointment to receive a vaccination in January to being able to get a booster shot in October, we (of a certain age) may have protected ourselves from Covid to the extent we were able to do so. Perhaps we even ventured out of our homes for activities which were denied to us in 2020.

Mask-wearing is still a constant in crowded indoor spaces for me but I have learned that I can safely socialize with my vaccinated family or friends once again to celebrate birthdays, reunions, holidays, and special occasions. The spread of the Delta variant in late summer and early fall reminded us all that we are not free of this pandemic just yet, but “hope springs eternal” that 2022 may prove to be the year that we can breathe a bit easier and resume more activities that we love.

Here at OLLI, we operated on a somewhat hybrid schedule for the fall term. Some of us have continued to take many of our classes via Zoom. But we have had in-person only classes or classes that had participants in the classroom and watching on Zoom. We have been following WVU guidelines requiring masks if you choose to come to the classrooms. And many of our special interest groups are meeting regularly now.

My hope is that soon OLLI will be able to welcome us all back to more in-person classes in Morgantown and in the Kanawha Valley. And perhaps the member lounge will be re-opened in Morgantown.

We have been changed by Covid-19 but not deterred. We need to continue to challenge our minds and bodies and stay active by interacting with each other in a safe and responsible way. I hope to see you in the winter term classes that will begin in January. Hope does indeed spring eternal!

Happy Holidays!

Beverly Kerr
President, OLLI Board of Directors

For many years, OLLI has emphasized the importance of staying intellectually engaged as one ages, highlighting the health benefits of continued learning. OLLI embraces the adage, learn something new everyday, and encourages members to expand their horizons by taking classes that introduce them to topics that they have not previously explored and information they don’t know.

The past nearly two years have also taught us the importance of personal connection and staying socially engaged. As we continue to offer learning opportunities for older adults in our communities, we are focusing equally on bringing people together. The recent expansion of special interest groups and reopening of our physical classrooms present opportunities for our members to reconnect with long-time friends and make new friends as they share their OLLI experiences. Our member relations and marketing committees are exploring new ways of welcoming new members. And we need your help.

How did you hear about the OLLI at WVU? What, or who, has brought you to OLLI?

Did you know that more than 75% of OLLI members cite word-of-mouth as their introduction to our program? A friend or family member suggested they try a class or social event. Or a current OLLI member invited them along.

OLLI members make the best ambassadors. If you’re a current OLLI member, we invite you once again to bring a guest to an in-person class* this winter as an introduction to our program. Be sure to contact the OLLI office in advance to be sure there is a seat available.

You can also pass along a course catalog or share your experience with the purchase of a gift membership.

If you’re new to OLLI, welcome! All new members receive a welcome letter in the mail with information to help you get started. Please feel free to contact the OLLI office with any questions. We are thrilled to have you with us!

During this 2022 winter term, OLLI at WVU is offering more than 45 lectures, workshops, discussion groups, activities, and social events for our members. We will also host three opportunities that are free and open to the community, as you can see on page 10.

I hope to see you in class soon!

How to Take an OLLI Class

This winter, OLLI classes and events will be offered in one of four ways for members to participate. These include:

- **In-person only** - Instructor will be present in the classroom with OLLI members. Classroom location is listed in description.

- **Online only** - Instructor and participants will meet via Zoom, as stated in class description.

- **Hybrid** - Instructor will be present in the classroom with OLLI members. Other members can participate via Zoom. Classroom location is listed in description.

- **Hybrid with streaming** - Instructor will not be in the classroom but teaching via Zoom. The class will be streamed to an OLLI classroom. OLLI members can participate via Zoom at home or come to an OLLI classroom to do so. These classes are indicated by the symbol ♦ next to the classroom location.

When registering for hybrid or hybrid with streaming classes, please indicate on the form in which ways you would prefer to participate. *If you register to take a class on Zoom but later wish to attend in person, you must check with the office prior to arriving to be sure there is a seat available for you.*

Zoom links will be emailed to all participants in online and hybrid classes by 9:00 a.m. the morning of the class/event. *Please check your inbox, as well as spam and junk boxes, for the email at least 30 minutes prior to the start of your class.* If you do not see an email for your class, call the OLLI office at 304-293-1793. We’re happy to resend the email.

## Important Read

### Return to Classroom Health & Safety Protocols - UPDATED

- **Please Mask Up** - OLLI follows WVU policy regarding the wearing of masks. Therefore, masks are required for all OLLI classrooms during our winter term. When wearing a mask, please be sure it is covering your nose and chin. *Masks may be required for a class hosted in a location other than an OLLI classroom. OLLI is happy to provide you with a disposable mask if you need one during a class. Just ask your class host.*

- **Wash Your Hands** - Hand sanitizer will be available in each classroom and the member lounge.

- **Physical Distancing** - Although six feet may not always been possible, please keep space between yourself and other members in the class.

- **Cleaning** - Disposable wipes will be available in the classrooms if you wish to wipe off a table prior to sitting.

Per WVU policy, OLLI is not requiring vaccination against COVID-19 as of publication. However, the situation is fluid and changes will be made as necessary.

### Need assistance with Zoom?

Interested in taking an OLLI class this winter but not sure how to use the online meeting software, Zoom? OLLI’s professional technologist, Michelle Klishis, will walk you through the steps you’ll need to take, from downloading and installing the Zoom app on your device, to entering the virtual classroom, to using the chat function, and more. If you don’t have a computer or personal electronic device, learn how you can join Zoom with your phone. Contact the OLLI office to arrange a session.

### Technical Assistants Needed

OLLI is seeking volunteers at home and in the classroom to assist instructors teaching Zoom and hybrid classes. Volunteers will operate the technology that delivers OLLI classes to our members online. OLLI will provide training so no experience is necessary. Email olli@hsc.wvu.edu for more information or to volunteer.

*Volunteers assisting 12 hours or more during a term will receive an OLLI gift card.*
Thank You to Our Donors

The Osher Lifelong Learning Institute at WVU is dedicated to providing the highest quality educational, recreational, and social opportunities possible to our members. For many years, we have been able to offer 200 or more classes, workshops, lectures, discussions, and field trips annually. In March 2020, OLLI quickly transitioned programming to an online platform for classes and new social events to keep our members engaged while physically distancing.

In order to sustain and grow the program, your financial support is needed. Although OLLI receives support from WVU and earnings from the Osher Endowment, this funding covers only about 50% of our expenses. Membership and registration fees cover another 25%. Therefore, the remaining 25% must be raised through donations, gifts, sponsorships, and grants. Your donation to OLLI can help ensure that OLLI will be here when we return to our classrooms in Morgantown and Charleston.

As OLLI at WVU strives to achieve financial sustainability, we would like to say thank you to all who have given so generously this year. The following reflects donations processed between July 1 and December 22, 2021, per the WVU Foundation. If your name is not listed and you believe it should be, please call the OLLI office at 304-293-1793.

Melora Cann*

Extreme emotional distress and possible health issues consumed him during his short life of 37 years, yet he produced some of the world’s most impactful and now well-loved images, most notably Starry Night.

Mind Your Mama! Presidential Mothers and Their Impact
Jack Hammersmith*
Wednesdays, Mar. 2 & 9
10:00 - 11:45 a.m.
Classroom B & Zoom

Following up the fall course, “President’s Wife or First Lady,” this one will look at the feminine impact on U.S. presidents from a different perspective: as mothers, not spouses. Unlike the prolific studies of First Ladies, relatively little has been written of maternal influences. Bonnie Angelo’s First Mothers is a partial exception, but her work covers only recent First Mothers, from domineering Sara Roosevelt through matriarch Barbara Bush. Thus, in lieu of being able to do exhaustive original research, this two-part course will focus largely on those dozen figures, briefly surveying a few additional, influential ones.

Hard times and news from the front by radio and newspapers made life very hard for the greatest generation. A. D. Hopkins, Father of American Entomology
Jim Rentch
Thursday, Feb. 24, 12:45 - 2:30 p.m.
Classroom B & Zoom
Andrew D. Hopkins was born in 1857 on a farm in Jackson County, WV. His formal education was limited to high school. When 32, he convinced the director of the WV Agricultural Experiment Station to hire him as station entomologist. He went on to investigate large insect infestations in spruce and pine forests in WV. In 1899, he began collaborating with the USDA Bureau of Entomology, investigating insect outbreaks in Maine, South Dakota, the Pacific Northwest, and the South. The authority, diversity, and volume of Hopkins’ publications is unmatched and he is today still considered “the father of American entomology.”
Bison (Buffalo) in West Virginia
Jim Rentch
Thursday, Feb. 17, 12:45 - 2:30 p.m.
Classroom B & Zoom

The bison is an iconic American symbol and the national mammal. At the time of European settlement, as many as 60 million bison roamed the Great Plains of the U.S. and Canada. Less appreciated is the fact that as many as four million could be found east of the Mississippi River, including a large portion of West Virginia. This talk will present recent research in WV that led to a detailed map of old buffalo traces that crisscrossed the state. These traces later became Native American trails, then trails for early settlers, and finally, a number of major U.S. highways.

Donora, PA—Where the Clean Air Movement Started
Jim Rentch
Thursday, Mar. 3, 12:45 - 2:30 p.m.
Classroom B & Zoom

In 1900, West Columbia, PA, was a rural crossroads of 12 people along the Monongahela River. Two years later, it was an industrial town of 5,000 called Donora, home to the world’s largest nail mill and what would become the world’s largest zinc smelter. In October 1948, a temperature inversion trapped mill emissions—a toxic mixture of sulfuric acid, fluorine, carbon monoxide, and airborne heavy metals—at ground level. The effect was deadly. Four days later, the poisonous air had killed 20 people, hospitalized 50, and 7,000 people were treated for respiratory ailments.

Thursday, Feb. 3, 12:45 - 2:30 p.m.
Classroom A♦ & Zoom

A century ago, Albert Einstein (1879 -1955) received the 1921 Nobel Prize in Physics. The Nobel Prize was not for his Special and General Theory of Relativity but rather, “for his services to Theoretical Physics, and especially for his discovery of the law of the photoelectric effect.” Einstein’s contributions to modern physics led scientists to look at energy, matter, gravity, space, and time in a new way. Einstein’s other pioneering works, including the theory of Brownian Movement, refrigerators without moving parts, Unified Field Theory, Bose-Einstein Condensate, and more will be briefly described in the class.

Instructors
Our program depends on the generosity of our volunteer instructors to teach the quality courses and learning experiences offered throughout the year. OLLI instructors, drawn from all walks of life, share their knowledge and expertise of their chosen careers, fields of study, or hobbies about which they are passionate. Free from tests or grades, instructors experience the joy of teaching students who are enthusiastic, engaged and eager to learn.

Office Support
Sometimes we just need a little help around the office. Volunteers can help by refreshing the coffee in the member lounge, answering the phones, making copies, filing, and other light administrative duties.

Project Team Member
Perhaps you have a special skill that OLLI could take advantage of for a specific project. Are you fluent in Adobe InDesign or video-editing? Or are you handy with a paint brush or power tools? Do your talents include fundraising or organizing? There are several projects on which we can use your help!

Registration Assistants
The first week of class registration each term is a busy one for the office staff. Volunteers can answer questions and help members register for classes. If you’re comfortable with computers and online shopping, we can teach you how you can help.

Standing and Ad Hoc Committees*
OLLI has several standing committees that work together to keep our program running. A list of committees can be found on OLLI’s website at https://olliatwvu.org/about-us/committees/.

Technical Assistants
The introduction of hybrid classes to OLLI brings the need for help running Zoom in the classroom. If you’re comfortable with computers, we can teach you how you can help.

How to Become a Volunteer
To become an OLLI volunteer, contact the OLLI office at 304-293-1793 or submit the Volunteer Information Form online at http://www.olliatwvu.org.
